

Appendix 6

Comments from the Children and Young Peoples Response Form, in full

1.1.1. Brynford C.P. School

- I have recently moved to brynford and my child is on the waiting list to enter Brynford CP School. I understand that the schools cannot remain in the current position but to upheave 3 schools would be too drastic depending on school numbers. Also it needs to be considered the impact on the children themselves and how they would get to their new school.
- I'd favour option 3 because it could make our school better and make it more popular. We could have more opportunities in competitions, we may have better technology and our classrooms may be better and more up to date.

1.1.2. Lixwm C.P. School

- There is already a document on the internet from FCC showing the lixwm school site as a suitable site for development if the school should close. If this happened, none of the options already discussed would cover the large increase in children this could produce. In the absence of a 5 year (or longer term) housing availability plan, how can any decisions be taken on the number of school places and their location?

1.1.3. Ysgol Rhos Helyg, Rhosesmor

- I love my school. Please don't take it away. I walk there sometimes across Halkyn Mountain from my Grans house. We all have the best time at Ysgol Rhos Helyg.
- I really want to stay at Rhos Helyg as I like all my teachers and like the way they teach me. I also enjoy going to after school club which I have to go too when my mum and dad are in work and can't collect me at 3.10 p.m., plus I also enjoy looking after the school chickens which is done on a rota system. I also want to stay at Rhos Helyg as I want to go onto Mold Alun School
- I think that Rhos Helyg has made me feel very happy and let me achieve all my goals. Please don't change my school.
- I am in my last year at Rhos Helyg and it will be a shame for this school to close as I have had a great time here.
- I love my school. I love playing outside with my friends. I like seeing sheep. My teacher is friendly.
- I would prefer to stay at Rhos Helyg because its closer to home and I think my teacher is ace. I think I will get less attention and help if we have more children come to our school

1.1.4. Non-Affiliated Comments

- Don't prevent people getting education!
