MANCOT - SETTLEMENT SERVICE AUDIT

Settlement Commentary

Mancot is a relatively modern settlement located on land which gently slopes down from Hawarden towards the R. Dee. It is bounded to the south by Hawarden and Ewloe and to the north by Sandycroft and Pentre. The settlement is made up of a number of blocks of residential development each with their own names i.e. Royal Mancot, Big Mancot and Little Mancot yet there is little to distinguish these areas on the ground. Mancot has a modest level of local facilities and services and also benefits from being able to access services and facilities in nearby settlements including Hawarden and Ewloe. It is well located in relation to nearby centres of employment and has a good level of bus services.

Broadband Provision

According to the latest OFCOM data (2013) Mancot post codes (where data is available) have a median average broadband range of 4.3 - 10.4 mega bytes per second with most postcodes in Mancot at around 8 mbps. Broadband provision within Mancot is considered to be poor to below average. This will have an adverse effect on the ability of businesses and local residents seeking to operate a business or in accessing online services such as banking, post office services or online shopping.

Other Comments

Mancot Health Clinic closed some years ago. The library in Mancot could close as part of service changes.

Previous Surveys of Service Provision

In 2000 Mancot was assessed as part of the Unitary Development Plan's preparation. The survey identified that Mancot had some facility provision. Comparing the 2000 situation with 2015 it appears that Mancots service provision has declined with the loss of the medical clinic on Mancot Lane

Mapping Service Provision

Some of the service provision has been mapped for illustrative purposes and is presented overleaf. As the image suggests service provision in Mancot is reasonable and is made better by its close proximity to services within Sandycroft and Hawarden not to mention its close proximity to Queensferry (Asda).
